To the reader

This codebook is part of the data FSD2269 archived at the FSD (Finnish Social Science Data Archive). The dataset has been described in as much detail as possible in Finnish and English. Variable frequencies, variable and value labels, and missing values have been checked. If necessary, the data have been anonymised. The data and its creators shall be cited in all publications and presentations for which the data have been used. The bibliographic citation may be in the form suggested by the archive or in the form required by the publication. The bibliographic citation suggested by the archive:

The user shall notify the archive of all publications where she or he has used the data. The original data creators and the archive bear no responsibility for any results or interpretations arising from the reuse of the data.

The codebook contains information on data content, structure and data collection, and includes a list of publications wholly or in part based on the data, according to publication information received by the FSD. The second part of the codebook contains information on variables: question texts, response options, and frequencies. The third part contains indexes.

Variable distributions presented in this codebook have been generated from the SPSS files. Distribution tables present variable values, frequencies (n), frequency percentages (%), and valid percentages (v. %) which take into account missing data. All distributions are unweighted. If the data contain weight variables, these will be found at the end of the variables list. In some cases frequency distributions have been substituted by descriptive statistics. Categorised responses to open-ended questions are not always included in the codebook. Distributions may contain missing data. The note "System missing (SYSMIS)" refers to missing observations (e.g. a respondent has not answered all questions) whereas "Missing (User missing)" refers to data the user has defined as missing. For example, the user may decide to code answer alternatives 'don't want to say' or 'can't say' as missing data.

The codebook may contain attached files, the most common one being the questionnaire.

Finnish National Election Studies

Finnish National Election Studies are nationally representative surveys conducted in connection with parliamentary elections in Finland. Data have been collected by the Election Study Consortium from the year 2003 onwards. More information in the Finnish Election Study Portal.

The data, collected through face-to-face interviews and self-administered questionnaires, allow study of changes in public opinion and democracy over time. Some modules are repeated but each study also contains questions on current issues. Main themes include political participation, political attitudes, candidate and party choice, voting, and election campaigning.

Abstract

The survey consists of two parts which were collected after the 2007 parliamentary elections in Finland with the help of face-to-face interviews and a supplementary, self-administered questionnaire. Swedish-speaking population is over-represented in the data. The interview data form

Finland's contribution to the international Comparative Study of Electoral Systems program (CSES).

The respondents were asked about their interest in politics and how much they had followed the elections in different media. Their views were canvassed on which group they primarily identified with, self-perceived social status, how stable their party preference was, and what they would be willing to do in order to promote the issues they considered important. Views on voting, participating in parliamentary elections, politics, politicians, and various institutions were queried with the help of attitudinal statements. The respondents were also asked questions about the Internet and the ways of using it as a means of political participation.

Next, the respondents were asked whether they had held any municipal elected offices, and whether they were members of any political party. They were also asked to name objectives which the recently elected members of parliament in their constituency should focus on, and also to name the most important issues debated during the past parliamentary elections as well as the most severe social problems in Finland. The respondents were asked whether they thought voting makes any difference, and whether it makes any difference who is in power. They were also asked to assess the performance of the previous government led by Matti Vanhanen. In addition, the respondents were asked to place various political parties as well as Matti Vanhanen, Eero Heinäluoma, Jyrki Katainen, and themselves on the left-right axis. Some questions focused on how the parties had distinguished themselves from each other during the elections, to what extent the respondents had followed election campaigning, and how well democracy worked in Finland.

In addition, the respondents were asked whether they had voted in the 2007 parliamentary elections, which party they had voted or would have voted for, and whether there was a party in the past elections they would have never considered voting for. If the respondents had not voted, they were asked about their reasons for abstaining from voting. Those who had cast a vote were asked what their voting decision was based on, whether they had voted for a candidate of their own gender, how old their candidate was, and whether they had voted in the 2003 parliamentary elections. Finally, the respondents were presented with some questions measuring their knowledge of political issues.

The supplementary, self-administered questionnaire charted the importance of issues and objectives debated during the elections for the respondents. The respondents were also presented with a set of attitudinal statements on redundancies, growing income disparity, and building a sixth nuclear power plant in Finland. In addition, they were asked about different sources where they had received information relevant to their voting decision, and presented with general questions and statements pertaining to voting, Finland's international relations and politics. Membership in various groups was canvassed, as well as how often the respondents discussed political issues with other people and what they would think if it were possible to vote online on the issues debated in the Parliament. The respondents expressed their views on the significance of party leaders for party support, whether there should be more freedom of choice in the public sector, whether there should be more social reforms, and whether the state of affairs was better at the time of the interview than two years before. Finally, views on the future and satisfaction with financial situation and life in general were probed.

Variables beginning with 'k' denote the national election study variables, 'q' denotes CSES variables, 'p' denotes variables from the self-administered questionnaire, 'a' denotes CSES administrative variables, and 'd' denotes background variables.

Background variables included the respondent's year of birth, gender, education, marital sta-

tus, trade union membership, economic activity, occupational status, annual household income, religiosity, mother tongue, place of residence, type of accommodation, and constituency.

1.3 Structure and collection of the data

Country: Finland

Geographic coverage: Finland

Analysis or observation unit type: Individual

Universe: Finnish people entitled to vote in the 2007 parliamentary elections, excluding the Åland Islands

Collection date: 20.3.2007 – 22.5.2007

Data collector(s): Taloustutkimus

Data producer(s): Academy of Finland; Finnish Social Science Data Archive; Ministry of Justice; Advisory Council for Youth Affairs; The Society of Swedish Literature in Finland

Mode of data collection: Face-to-face interview, Self-administered questionnaire: Paper

Type of research instrument: Structured questionnaire

Time period covered: 2007

Time method of the data collection: Longitudinal: Trend/Repeated cross-section

Number of variables and cases: The data contain 399 variables and 1422 cases.

Sampling procedure: Non-probability: Quota

For the interviews of the Finnish-speaking respondents, the sample was drawn with the help of quota sampling, in which the quotas were based on age, gender and province of residence of the respondents. The interviews were conducted by using the starting point method. The first interview was conducted in a randomly selected starting point, after which the interviewer proceeded to the next four households. In the interviews of the Swedish-speaking respondents, the quotas were not based on province; instead, they were based on constituency, because the interviews were only conducted in the constituencies where the number of Swedish-speaking people entitled to vote was significant (the constituencies of Helsinki, Uusimaa, Finland Proper, and Vaasa). In these constituencies, the interviews were further limited to the municipalities where the proportion of Swedish-speaking residents was significant. The selection was based on the information about the percentage of Swedish-speaking residents in Finnish municipalities, drawn from the Finlandssvenskarna 2002 report compiled by The Swedish Assembly of Finland (Folktinget). The quotas used in the interviews of the Swedish-speaking respondents were formed by ordering a random sample from the Finnish Population Register Centre. The size of the sample was ten times greater than the desired number of responses, and it contained altogether 3,000 names of Swedish-speaking people entitled to vote and living in the municipalities selected for the sample. The quotas in this sample were based on age, gender and constituency-specific population distribution. Face-to-face interviews for the Finnish-speaking respondents were conducted 20 March - 23 April 2007 and for the Swedish-speaking respondents 1 April - 20 May 2007. The drop-off questionnaires were returned before 22 May 2007.

Weighting

The data contain a weight variable matching the whole data according to the mother tongue distribution in the Finnish population. There is also a language weight variable for the drop-off questionnaire data. The weight variables drop the proportion of Swedish speakers to 5.5%, leaving Finnish speaker percentage as 94,5%, as these two mother tongue options were the only ones given in the study.

Restrictions

The dataset is (B) available for research, teaching and study.

5 EI OSAA SANOA (SPONTAANI)

Normatiiviset näkemykset demokratiasta ja vaalipiirin koko

Pidän äänestämässä käyntiä kansalaisvelvollisuutena

On jokaisen oma asia, käyttääkö hän vaaleissa äänioikeuttaan vai ei

Demokratialla voi olla ongelmansa, mutta se on parempi kuin muut hallitusmuodot

Tärkeät yhteiskunnalliset kysymykset pitäisi entistä useammin päättää kansanäänestyksellä

Edustuksellisen demokratian tukena tulisi järjestää tavallisille kansalaisille tarkoitettuja poliittisia keskustelutilaisuuksia

Haluaisin itsekkin osallistua kansalaisille tarkoitettuihin poliittisiin keskustelutilaisuuksiin

Eduskuntavaaleissa minulle on tärkeää, että puolueellani on todella mahdollisuus saada ehdokas läpi vaalipiirissäni

Eduskuntavaaleissa minulle on tärkeää, että ehdokkaallani on todella mahdollisuus tulla valituksi eduskuntaan

Vaalipiirini kansanedustajilla ei ole riittävästi sananvaltaa hallituksen ja eduskunnan tekemiin päätöksiin

Vaaliliitot pitäisi kieltää eduskuntavaaleissa

Poliittinen osallistuminen

K9. Seuraavassa on joukko erilaisia yhteiskunnallisen osallistumisen muotoja. Jos tuntisitte asian edistämisen todella tärkeäksi, niin mitä näistä olette tehnyt viimeksi kuluneiden neljän vuoden aikana tai saattaisitte tehdä?

2. En ole tehnyt, mutta saattaisin tehdä
3. En tekisi missään tapauksessa
4. En osaa sanoa (SPONTAANI)

Kirjoittaa yleisönosastoon

Otaa yhteyttä poliittisiin päätöksentekijöihin jossakin tärkeässä asiassa

Kirjoittaa nimenne vetoamuksiin, nimenkeräyksiin tai toimintalistoihin

Osallistua poliittisen puolueen toimintaan

Osallistua muun järjestön toimintaan

Tehdä omia ostopäätöksiäni siten, että voisin kulutustavoillani edistää luonnon suojelua

Tehdä omia ostopäätöksiäni siten, että voisin kuluttajana vaikuttaa yhteiskunnallisiin tai poliittisiin asioihin

Osallistua boikottiin, maksu- tai ostolakoon

Osallistua rauhanomaisiin mielenosoituksiin

Osoittaa kansalaistottelemattomuutta osallistumalla väkivallattomaan laittomaan toimintaan

Osallistua sellaisiin mielenosoituksiin, joissa aiemmin on ilmennyt väkivaltaa

Käyttää väkivaltaa poliittisten päämäärien saavuttamiseksi

Internet

K10. Internet ja sähköposti ovat avanneet uusia mahdollisuuksia poliittiseen toimintaan ja tiedon hankintaan. Oletteko viimeksi kuluneiden neljän vuoden aikana tehnyt, tai saattaisitteko tehdä jotain seuraavista asioista Internetissä?

1. Olen tehnyt viimeksi kuluneiden neljän vuoden aikana
2. En ole tehnyt, mutta saattaisin tehdä
3. En tekisi missään tapauksessa
4. En osaa sanoa (SPONTAANI)

Kirjoittaa nimenne vetoamuksiin, nimenkeräyksiin tai toimintalistoihin

 Keskustella muista asioista

- 2 En ole tällä hetkellä, mutta olen ollut aikaisemmin

Edustusperiaatteet

Ajatelkaa omasta vaalipiiristäne eduskuntaan valittuja kansanedustajia. Mitä seuraavista tavoitteista heidän pitäisi ensisijassa ajaa eduskunnassa?

K16_1. Tulisiko kansanedustajien ensisijaisesti ajaa (vain yksi vaihtoehto)?

- 1 Oman puolueensa asettamia keskeisiä tavoitteita
- 2 Heidän itsensä asettamia keskeisiä tavoitteita
- 3 Oman alueensa ja vaalipiirinsä kannalta keskeisiä tavoitteita
- 4 Omien äänestäjensä tavoitteita

5 En osaa sanoa (SPONTAANI)

K16_2. Entä mitä tavoitteita kansanedustajien tulisi toissijaisesti ajaa (jokin kolmesta muusta vaihtoehdosta)?

- 1 Oman puolueensa asettamia keskeisiä tavoitteita
- 2 Heidän itsensä asettamia keskeisiä tavoitteita
- 3 Oman alueensa ja vaalipiirinsä kannalta keskeisiä tavoitteita
- 4 Omien äänestäjensä tavoitteita

5 En osaa sanoa (SPONTAANI)

Asenneväittämiä

K17. Mitä mieltä olette seuraavista väittämistä? Oletteko täysin samaa mieltä, jokseenkin samaa mieltä, jokseenkin eri mieltä vai täysin eri mieltä väittämien kanssa?

LUETTELE

- 1 Täysin samaa mieltä
- 2 Jokseenkin samaa mieltä
- 3 Jokseenkin eri mieltä
- 4 Täysin eri mieltä

5 EI OSAA SANOA (SPONTAANI)

Sisäinen ja ulkoinen kansalaispätevyys

Äänestäminen on ainoa tapa, jolla tavalliset ihmiset voivat vaikuttaa politiikkaan

Kansanedustajamme etäännyvät nopeasti tavallisten ihmisten ongelmista

Poliitikot eivät välitä tavallisten ihmisten mielipiteistä

Minulla ei ole mitään sananvaltaa siihen, mitä maan hallitus ja eduskunta päättävät

Puolueiden kautta kansalaisten mielipiteet tulevat päätöksenteossa huomioon otetuiksi

Puolueet ovat kiinnostuneet pelkästään ihmisten äänistä, eivät heidän mielipiteistään

Joskus politiikka vaikuttaa niin monimutkaiselta, että en oikein ymmärrä, mitä on tekeillä

Äänestämällä voi vaikuttaa asioihin

On yhdentekevää, mitkä puolueet ovat hallituksessa, harjoitettava politiikka ei siitä muutu

Instituutiot / representaatio

Puolueiden väliset vaaliliitot ovat myönteinen asia, koska ne helpottavat pienpuolueiden eduskuntaan pääsyä

Hallituksen tulisi koostua vain porvarillisista puolueista tai vain vasemmistopuolueista

Puolueiden olisi pitänyt vaalikampanjansa yhteydessä selvästi ilmoittaa, minkä muiden puolueiden kanssa ne halusivat muodostaa hallituksen

Politiikan ns. henkilöityminen on etupäässä hyvä asia

5 VET EJ (SPONTAN)

Normativa uppfattningar om demokrati och valkretsens storlek

Det är en medborgerlig plikt att rösta.

Det är var och ens ensak, om man röstar eller inte.

Demokrati kan ha sina problem, men den är bättre än andra styrelseskick

Viktiga samhällsliga frågor borde allt oftare avgöras genom folkomröstningar

Politiska diskussioner för vanliga medborgare borde ordnas som stöd för den representativa demokratin

Jag skulle själv vilja delta i dylika medborgardiskussioner

I riksdagsval är det viktigt för mig att mitt parti har reella chanser att få minst ett mandat i valkretsen

I riksdagsval är det viktigt för mig att min kandidat har reella chanser att bli invald i riksdagen

Riksdagsledamöter från min valkrets har inte tillräckligt inflytande över regeringens och riksdagens beslut

Valförbund borde förbjudas i riksdagsval

Politiskt deltagande

K9. Nedan nämns olika former för samhällligt deltagande. Om något var väldigt viktigt för Er, vad skulle Ni kunna göra eller vad har Ni gjort under de senaste fyra åren? (KORTTI)

1. Jag har gjort detta under de senaste fyra åren
2. Jag har inte gjort detta, men skulle kunna göra
3. Jag skulle aldrig göra detta

4. Vet ej (SPONTAN)

Skriva insändare

Ta kontakt med politiska beslutsfattare i ett viktigt ärende

Skriva på ett upprop eller en namninsamling

Delta i ett politiskt partis verksamhet

Delta i annan föreningsverksamhet

Styra mina inköp så att jag genom mina konsumtionsvanor främjar naturskyddet

Styra mina inköp så att jag som konsument påverkar samhällliga eller politiska frågor

Delta i en bojkott, betalnings- eller köpstrejck

Delta i en fredlig demonstration

Uppvisa civil olydnad genom att delta i olaglig direkt aktion

Delta i sådana demonstrationer där det tidigare har förekommit våld

Bruka våld för att uppnå politiska mål

Internet

K10. Internet och e-post har skapat nya möjligheter att agera politiskt och skaffa information. Vad skulle Ni kunna göra eller vad har Ni gjort under de senaste fyra åren på Internet? (KORTTI)

1. Jag har gjort detta under de senaste fyra åren
2. Jag har inte gjort detta, men skulle kunna göra
3. Jag skulle aldrig göra detta

4. Vet ej (SPONTAN)

Skriva på ett upprop eller en namninsamling

Ta kontakt med politiska beslutsfattare i ett viktigt ärende

Delta i politiska diskussioner

Delta i övriga diskussioner

K11. Hur ofta använder Ni Internet?

- 1 Dagligen
- 2 Några gånger i veckan
- 3 Ungefär en gång i veckan
- 4 Sporadiskt
- 5 Aldrig

K12. Har Ni för närvarande eller har Ni någon gång haft kommunala förtroendeuppdrag (t.ex. som nämnd- eller fullmäktigeledamot)?

- 1 Jag har förtroendeuppdrag för närvarande
- 2 Jag har tidigare haft förtroendeuppdrag
- 3 Nej, aldrig
- 4 Vet ej (SPONTAN)

K13. Är Ni medlem i något politiskt parti?

- 1 Ja
- 2 Nej, men har tidigare varit medlem
- 3 Nej, har aldrig varit medlem

K14. Har Du verkat i en kandidats stödgrupp inför riksdagsvalet?

- 1 Jag verkade för en kandidat i hennes/hans stödgrupp inför detta val
- 2 Inte i detta val, men jag har tidigare verkat för en kandidat i hennes/hans stödgrupp
- 3 Nej, jag har aldrig tillhört en kandidats stödgrupp

Representationsprinciper - Edustusperiaatteet

Om Ni tänker på de riksdagsledamöter som invalts från Er valkrets. Vilka av följande målsättningar borde de främst arbeta för?

K16_1. Borde riksdagsledamöterna främst arbeta för..? (endast ett alternativ) (KORTTI)

- 1 Centrala målsättningar som deras parti definierat.
- 2 Centrala målsättningar som de själva definierat.
- 3 Målsättningar som är centrala för den egna regionen och valkretsen
- 4 Sina väljares målsättningar
- 5 Vet ej (SPONTAN)

K16_2. Och vilka målsättningar borde riksdagsledamöterna i andra hand arbeta för? (något av de tre andra alternativen) (KORTTI)

- 1 Centrala målsättningar som deras parti definierat.

- 2 Delvis av samma åsikt
- 3 Delvis av annan åsikt
- 4 Helt av annan åsikt

5 VET EJ (SPONTAN)

Intern och extern medborgarkompetens

Att rösta är det enda sättet för vanliga medborgare att påverka politiskt beslutsfattande

Riksdagsledamöterna fjärras allt mer från vanliga människors problem

Politikerna bryr sig inte om vanliga människors åsikter

Jag kan inte påverka vad landets regering och riksdag beslutar om

Genom partierna beaktas medborgarnas åsikter i beslutsfattandet

Partierna är endast intresserade av människors röster, inte av deras åsikter

Ibland känns det som om politiken är så komplicerad att jag inte riktigt förstår vad som händer

Genom att rösta kan man påverka

Det spelar ingen roll vilka partier som sitter i regeringen, den förda politiken förändras ändå inte

Institutioner / representation

Valförbund mellan partier är bra eftersom det gör det lättare för små partier att bli representerade i riksdagen

Regeringen borde antingen bestå av bara borgerliga partier eller vänsterpartier

Partierna borde i valrörelsen klart ha deklarerat vilka partier de vill bilda regering med

Politikens så kallade personifiering är för det mesta en bra sak
